

River and Lake Regulation Effects in Kootenai River at Bonners Ferry, Idaho

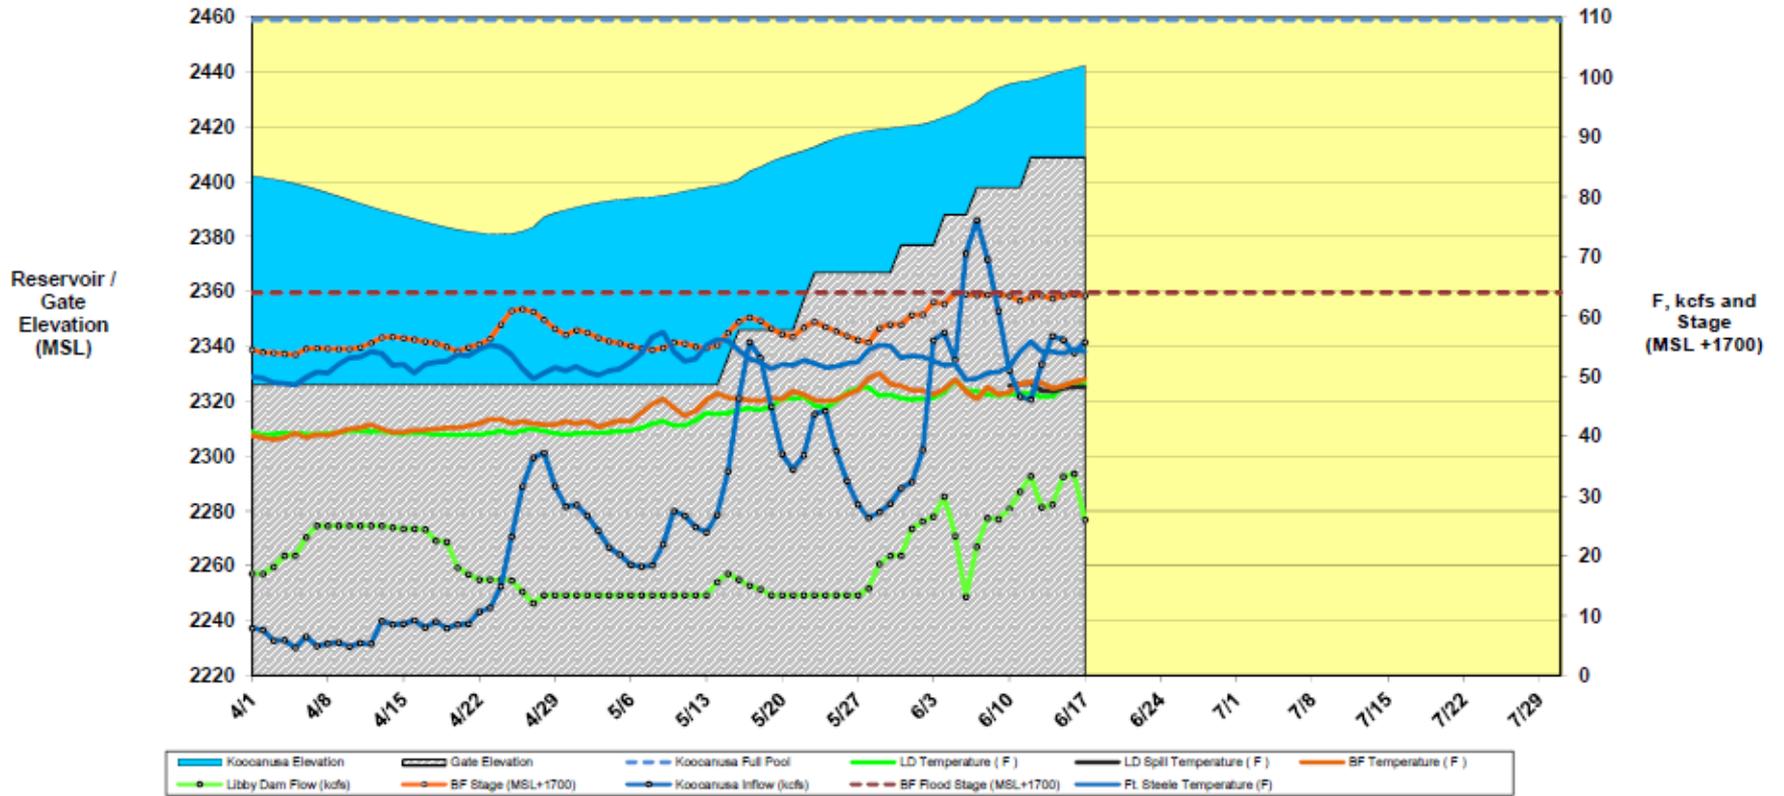

Regulation of the Kootenai River at Libby Dam and of Kootenay Lake at Corra Linn Dam alters depth and location of Kootenay Lake / Kootenai River backwater interface at Bonners Ferry, Idaho.

Sturgeon now spawn in deep water over sand and silty substrates – no survival of eggs.

Kootenai River and Kooconusa Reservoir Temperatures 2012 Sturgeon (1 April - 31 July)

Koocanusa Reservoir Temperatures 2012 Sturgeon (1 April - 31 July)
