

Idaho Good Neighbor Authority 2017 Overview / 2018 Plans

2017 Restoration Planning

State foresters are providing their expertise to add planning capacity for proposed forest restoration projects on Forest Service lands. IDL has also authorized 5 firms to provide a range of professional planning services for a year 3-year period on any National Forests in Idaho. IDL contracted services supported planning efforts on four restoration projects and totaled \$183,524.79 expenditures.

2017 Planning services contracted:

- Botany
- Transportation
- Fisheries
- Hydrology
- Soils
- Wildlife

Hanna Flats stream surveys

Windy-shingle harvest designation

2017 GNA Project Field Preparations

Under the state's four supplemental project agreements, IDL provided added capacity to completed fieldwork to advance forest restoration projects on National Forest System lands.

IDL assistance:

- ~ 1000 acres of tree marking
- Unit boundary establishment
- Designation of temporary locations
- Stand data collection
- Field reconnaissance

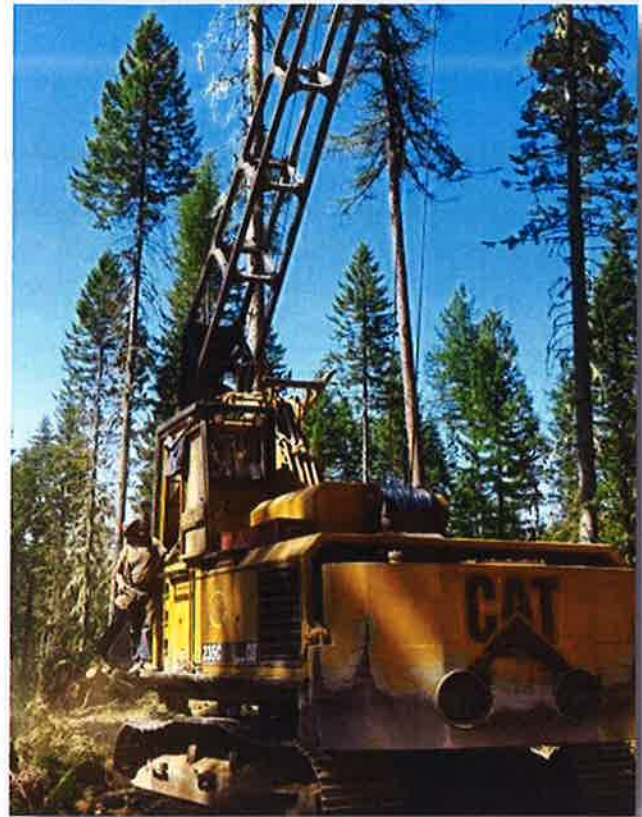

Idaho Good Neighbor Authority 2017 Overview / 2018 Plans
