

KVRI Forestry Sub-Committee NOTES

Here are some additional notes from Anita Hanson, USFS, for the Forestry Notes sent on Sept 20, 2018.

FYI. I have just been told that we will use the sale name Bolder Dash instead of Boulder Deuce.

September 20, 2018

I thought I may be able to clarify a couple of timber sales information. The East Fork Meadow Creek EA has two active sales: East Fork Stew still has units to be logged, and Meadow Creek TS which has all the volume removed. The Boulder Creek Restoration EA does have a GNA sale called Black Boulder and it is planned to be the first sale out for bid late spring 2019. The other sale planned for the summer of 2019 is the Boulder Deuce timber sale. The final sale planned in 2020 will be the North Star Stewardship sale.

Thanks,

Anita C. Hanson
