

Good Morning all.....I apologize for the short notice in canceling this meeting – Kevin Knauth, District Ranger, called last Thursday to let me know that the TAPS analysis (roads) has been delayed & also that their GIS staff was unavailable for a few days this past week.....so the Forest Service will not be prepared to have our meeting scheduled for tomorrow, Tuesday, Sept. 9th. Normally, I would have sent you all a notice on Friday, but our Tribal office was closed for a funeral service.

We will reschedule as soon as possible....in discussing with Kevin.....he anticipated sometime the first week of October.

Thanks very much.
